Who We Are

SYLKA
Carpets

Founded in 2011, SYLKA™ Carpets has established itself as a premier supplier of luxury carpets and rugs, renowned for creating our own innovative sustainable fibre system called NuSilk™ - EcoSylk®. We provide carpet design, manufacture and fitting services for the world's most prestigious residential, commercial and marine interior projects to over 120 countries. With our Sylka team having over 200 years' worth of experience, quality and excellent customer service is at the heart of everything we do.

Lasting Partnerships

SYLKA[™]
Carpets

We are honoured to be a trusted luxury carpet and rug supplier for some of the most prestigious brands and design studios worldwide, while also providing expert turn-key installations.

Our Technology

SYLKA
Carpets

NuSilk™ - EcoSylk® & AquaSylk™

Our team spent almost two years in R&D developing a new sustainable fibre system called NuSilk™- EcoSylk®, the world's first circular, fully regenerated luxury carpet fibre system. At the heart of this unique innovation is a commitment by Sylka to reduce carpet waste by preventing thousands of tonnes of used carpets going to landfill through the regeneration of yarns. NuSilk™- EcoSylk® is the embodiment of a 'Circular Solution', ensuring every carpet we manufacture not only comes from recycled fibres but are themselves fully recyclable – ensuring no Sylka carpet waste ever ends up in landfill.

AquaSylk technology transforms ocean waste plastic into a premium-quality yarn. This pioneering process helps to reduce pollution, eliminate waste, and support responsible production practices. Our commitment to sustainability goes beyond upcycling. We actively work to reduce our carbon footprint and contribute to global conservation efforts. The AquaSylk fibre system is used for our Oceana Collection, The first ever luxury carpet which is suitable for outdoor use.

Our Collections

SYLKA[™]
Carpets

NuSilk[™] - EcoSylk[®] Broad Loom Carpet & custom Rugs Collection

SYLKA's highly luxurious collections are made from the innovative NuSilk[™] - EcoSylk[®] microfibre system that has the deep lustre characteristics of pure silk, but with much more hardwearing properties and easier maintenance – making them ideal for a wide range of environments. Thanks to its ability to withstand spillages and sun damage SYLKA has also been specified by high profile boat builders and marine interior designers for vessels from 20 metre to 100-metre plus superyachts. Distributed from centres in America, London, Mallorca, France & Dubai , SYLKA has a truly global reach.

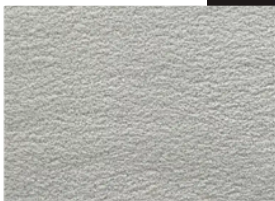

CHENILLE

This elegant, cut and loop pile carpet is a recent addition to our ranges and features a design inspired by a vintage, tip sheared product from years gone by.

ELEGANCE

Elegance with the longest pile of the ranges \pm 28.50mm, this gives the carpet a beautiful understated lustre.

OPULENCE

This lustrous, plain cut pile carpet is luxurious and extremely durable, making it an ideal choice where pure luxury with added durability is required.

SILLON

Sillon has a high lustre and luxurious look further enhanced through its pinstripe design. The interaction and reflection of light creates an elegant effect.

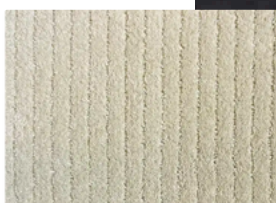

SHAMBHALA

This understated, cut and loop design is another Sylka variety of striped designs. With a loop in a lighter colour set lower than the cut pile, which gives a subtle tonal effect.

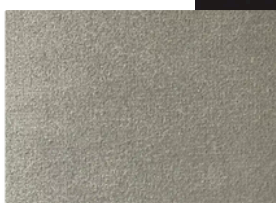

GRIDLINE

With a cut and loop pile that creates a tonal grid design, the loop is set slightly lower than the cut pile to give a three dimensional textured finish.

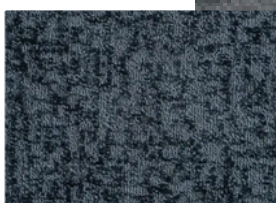

PINSTRIPE

Created by setting the loop slightly lower than the cut pile and also features a slightly delustered yarn, Pinstripe is understated and refined.

VELVETEEN

Velveteen has a shorter plain cut pile 8mm that gives a velvet finish and silk lustre. Extremely durable, practical and easy to maintain.

SHATTERED

Inspired by the organic, abstract texture of crackled glass, Shattered is one of the most interesting patterns among Sylka ranges.

Express Rug Service

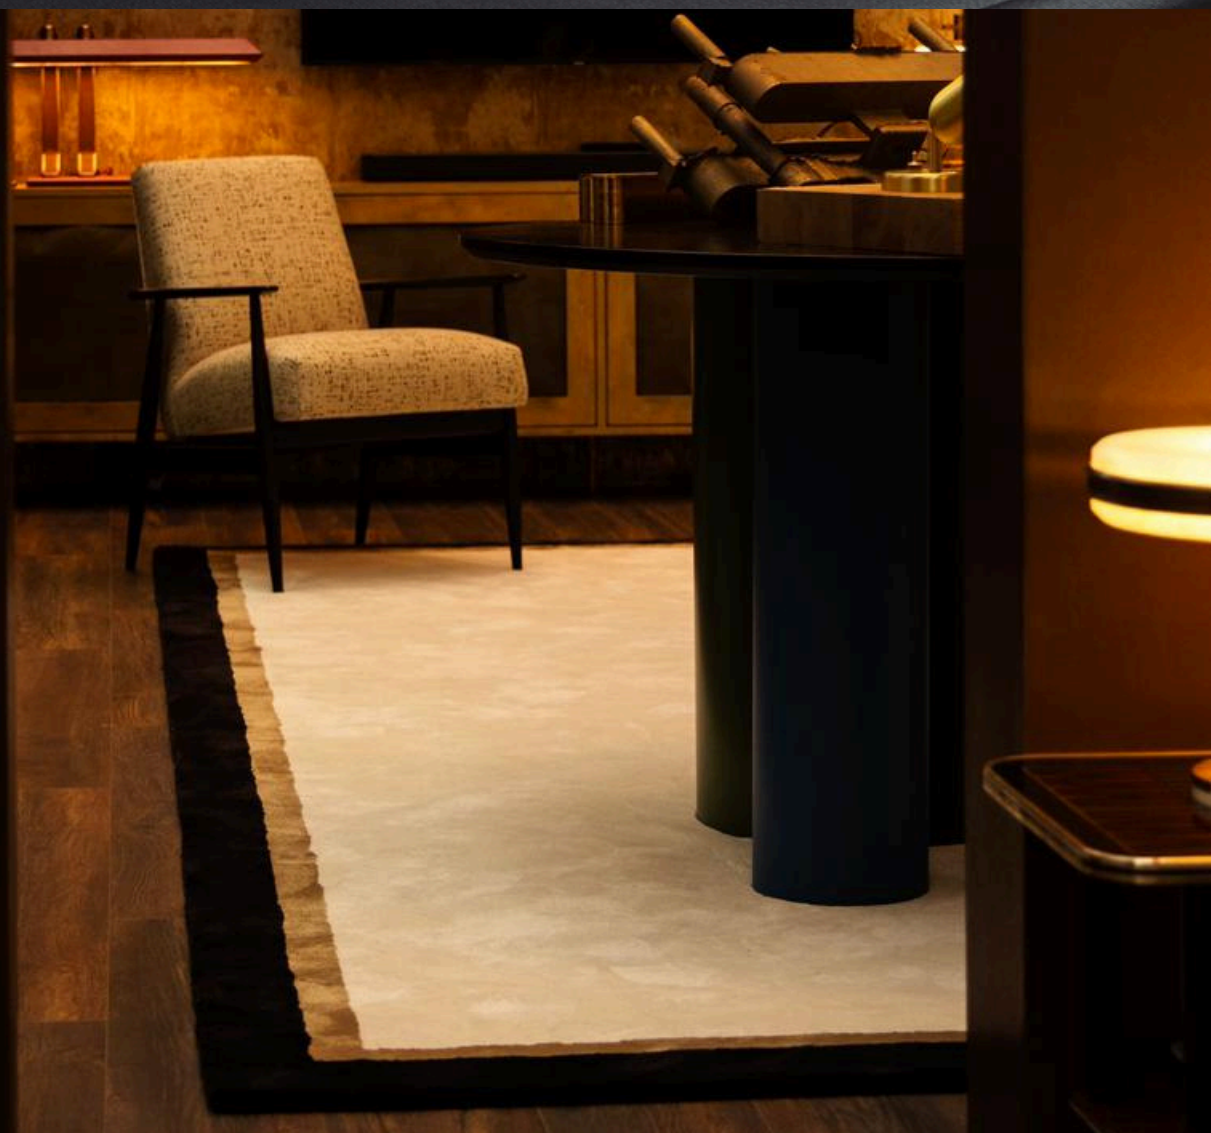

SYLKA[®]
Carpets

Bespoke Rugs Made to any Size or Shape

Our Express Rugs, created from our stock ranges offers a fully bespoke solution within a 14 day turnaround, ensuring that your custom-made rug is delivered promptly without compromising on quality.
